activities.

Erasmus +

In December, after-school club children from group II, waiting for Christmas, counted down the days, as in the Advent calendar, creating a Christmas Nativity Scene. Thus, they implemented a project under the Erasmus + programme.

The aim of the project was to promote reading among children and thus put them in a Christmas mood.

The teacher of the after-school club Marzena Sumara and the invited guests read fragments of the book entitled "The Mystery of Christmas" to the children. Every day, after listening to the story, children attached the figure to the Nativity Scene, which the story concerned.
