

I READ SO I AM HERE

"BECAUSE READING GIVES YOU SUPERPOWERS".

The aim of our reading plan is to encourage interest in reading and to enable the pupils to develop their reading skills.

Once a week the students and the teacher go to the library or to the playground if the weather is fine and there they each read their own book (chosen by themselves).

The last 15 minutes, 5 students read a part of their book aloud and we create discussions about what they have read. We ask questions such as:

- Did you like what your partner read, why?
- Would you change anything?
- Which character did you like the most and why?

At the end of each reading, students make a presentation of their book.

At the end of the scholar year, every student receives a Reading certificate.

POW!
