

With the book through quarantine.

While teaching remotely, the teachers of John Paul II Primary School No. 6 in Sanok conducted many interesting classes for students.

One of such classes was **reading classes, conducted by Ms. Sabina Kurasik, the early education teacher of class 1 „b”**. Children had a chance to experience the adventures of **"Bolek and Lolek – the brilliant detectives"**.

Ms Sabina recorded her reading in various places: at home, in nature, because you can read anywhere. Then she posted the videos on *YouTube*, where she created her channel especially for children.

Every day a new episode about the adventures of our heroes was added and allowed children in the daily routine and let them keep in touch with their teacher.

There is a link below to the first episode, which will lead to the next ones...

You can also write → **Sabina Kurasik** in the YouTube search engine, and it will redirect You to the reading channel.

We invite everyone to the world of adventures of Bolek and Lolek!

Enjoy!
