

# We are Europeans

*The educational project implemented  
as part of the after-school club activities*

*Erasmus +*

# „We are Europeans.“

Children from Primary School No. 6 in Sanok, together with the after-school club teachers, Mrs. Ewa Motek and Mrs. Marzena Sumara, actively participated in the implementation of the educational project entitled „We are Europeans“ within the cooperation programme of European schools Erasmus +.

Jestem Europejczykiem

The aim of the project is to bring closer the culture of the countries participating in the Erasmus+ programme; to get to know the traditions and customs and to learn about the cultural heritage of the partner countries.

Welcome to Europe!

Group IV

Mrs. Ewa Motek

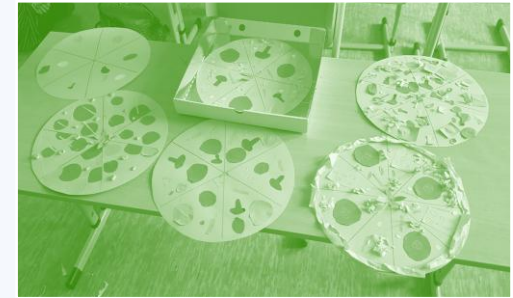

# Culinary European Week

Throughout the whole week, the children from group IV, together with Mrs. Ewa, got to know the dishes popular in the countries of our Erasmus + partners. Then, according to their own ideas and Mrs. Ewa's suggestions, they tried to recreate these dishes using various art materials.

# Culinary European Week

- Day I Polish **PIEROGI** (dumplings)
- Day II Italian **PIZZA**
- Day III French **CROISSANTS**
- Day IV Spanish **PAELLA**

# Day 1: Poland – pierogi (dumplings)

First we learned how to prepare a dough for dumplings and the ingredients of the stuffing.

Then we tried to roll out the dough.

*The next step was to cut out the rings from the dough,  
from which the dumplings were formed.*

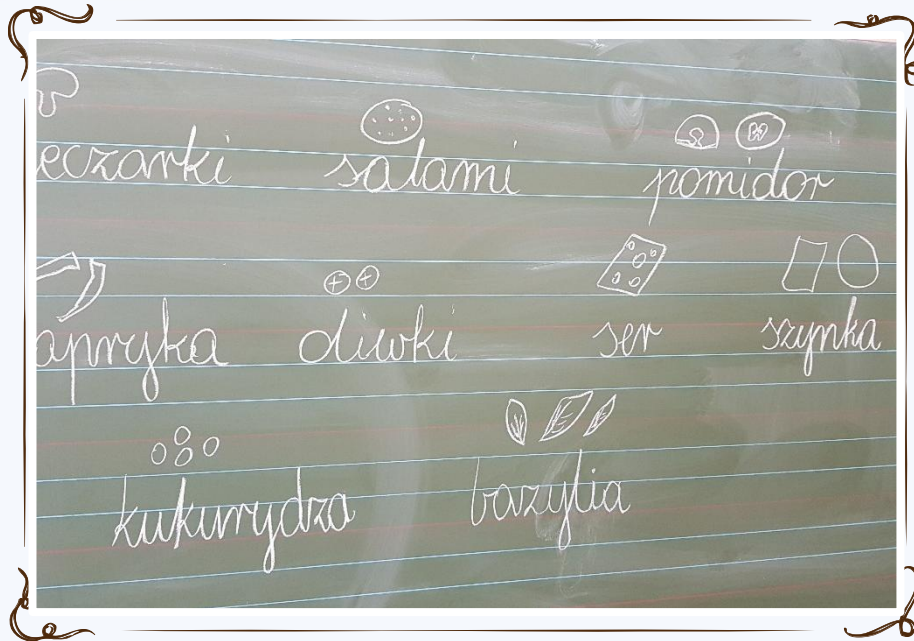

*Preparing dumplings is not easy, but it's great fun.*

*And here are the results of our work!*

## Day 2: Italy - pizza

On the second day we got acquainted with the process of baking Italian pizza and learned about the most delicious ingredients.

According to our own ideas we prepared ingredients for our pizza.

*Pizza is our  
favorite Italian  
dish!*

# Day 3: France – croissants

*Preparing French croissants is not easy, but it's great fun.*

*Kneading, rolling and painting...*

*The results are crunchy  
French croissants.*

## Day 4: Spain - paella

The recipe for preparing the Spanish paella turned out to be very interesting.

In our recipe the most important thing is to colour the rice!

*And here's the Spanish paella according to the children's recipe.*

*Welcome to Europe!*

*Group II*

*Mrs. Marzena Sumara*

# European architecture

*The second group together with Mrs. Marzena also took part in the project „We are Europeans“.*

*The whole project was divided into 3 stages.*

*In the first stage, children learned various interesting facts about famous buildings from the countries participating in the Erasmus+ programme: Italy, Spain, France and Poland.*

*In the second stage, the children created the artwork.*

*They used matchsticks and glue to make buildings.*

*It was a hard job!*

France:  
Eiffel Tower,

Italy:  
Leaning Tower of Pisa,

Spain:  
Sagrada Familia,

Poland:  
The Palace of Culture and  
Science

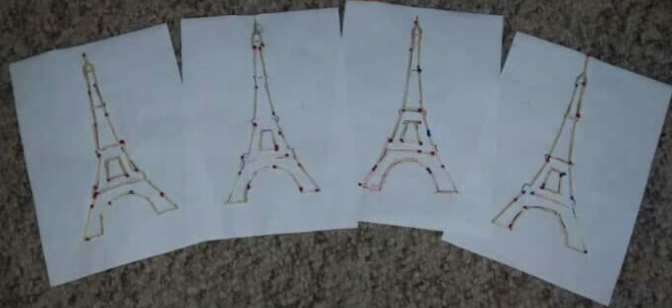

*Pałac Kultury i Nauki*

*Krzywa wieża w Pizie*

*wieża Eiffla*

*Sagrada Familia*

*We are proud of our work.*

*In the third stage the children turned into architects and builders. With the help of Mrs. Marzena they designed and built a huge Eiffel Tower from paper rolls.*

*First we designed the appearance of our tower together.*

Then, together with Ms. Marzena, we made towers from paper rolls and reinforced them with a painting tape.

Finally, we painted the tower to finish our project.

The background features a stylized landscape with rolling green hills in various shades of green and brown. A blue sky with light blue waves is at the top. A red bird is flying in the sky, and a green tree and a purple flower are on the left side.

The aim of the project was to learn about the architecture and culture of the Erasmus + partner countries, as well as group integration and cooperation within the group.

The children proudly presented their work and unanimously stated that they could build such a wonderful tower thanks to everyone's cooperation.
