

# *We are europeans - St John Bosco*

January 31 is one of the most important dates in our school since we pay tribute to the human being that defines the way we teach, behave and cope with different situations. We all celebrated Don Bosco's day having fun with different sport competitions, games, traditional food contests and hot chocolate for everyone. Definitely, he makes us be as europeans as possible given that he taught us how to be part of a group and take care of one another under any circumstances.
