

I WILL SHOW YOU MY HOMELAND

Project implemented as part of the after-school club activities

Erasmus+

After-school club children from group II, together with their teacher, Ms Marzena Sumara, actively joined the implementation of the educational project entitled „I will show you my Homeland' within the Erasmus+ programme.

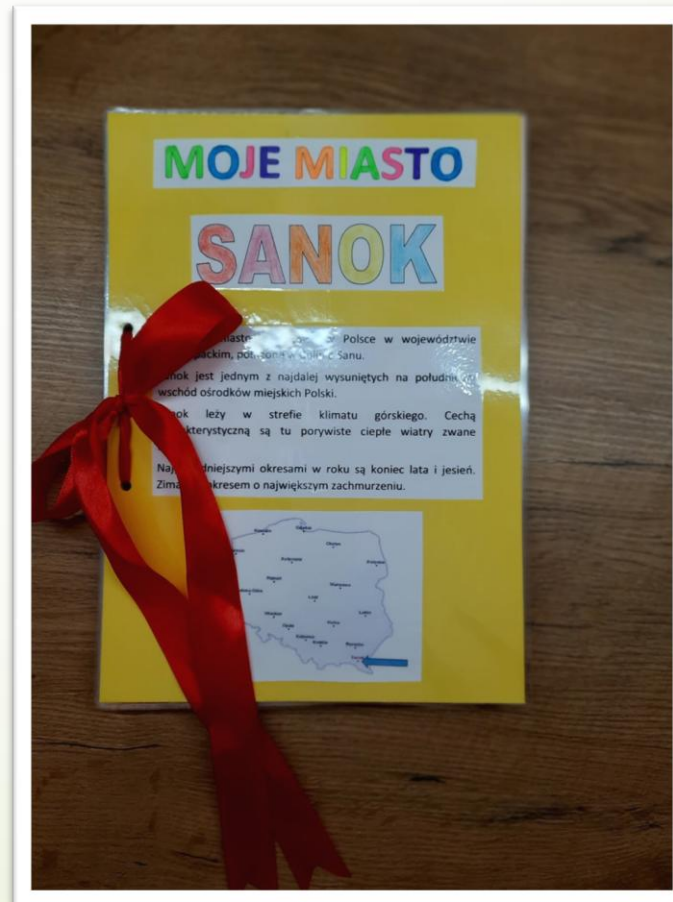

The aim of the project is to show the most attractive places and interesting elements of their town, to draw attention to the beauty of their place of residence, their 'Little Homeland', and to gain knowledge about how young people perceive their town and how they would like their friends from abroad to see it.

In the album created by the children you will find basic information about Sanok concerning the location of the city, its crest, patron of the city, plants, animals, monuments and sports. The album is decorated with drawings made by children.

ALBUM

MY TOWN SANOK

The children, with the help of the after-school club teacher, prepared pictures, captions, information and made drawings that decorated the album.

The Royal Castle and The Museum of Folk Architecture in Sanok - drawings made by children

Pictures of animals and plants in Sanok and captions made by children

Sports practised in Sanok - drawings made by children

Preparing illustrations and captions for the album

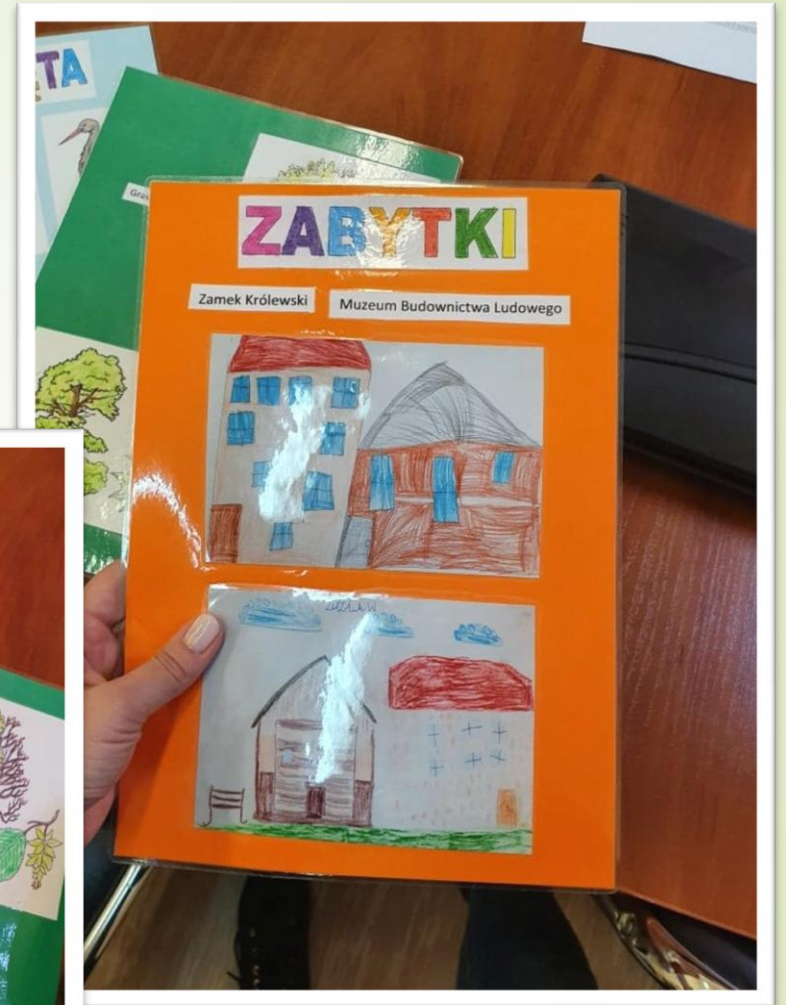

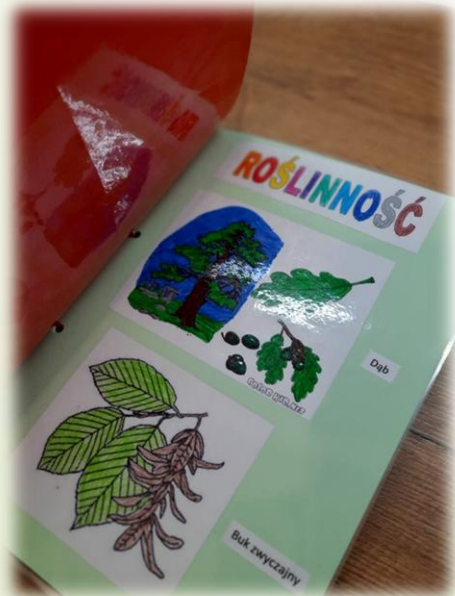

The album ready to laminate

Laminating
