

ART AROUND US

PROJECT OBJECTIVES

- To promote ecological thoughts.
- To create art using everyday materials (cardboards, plastic bottles, toilet paper...).
- To promote imagination and inventiveness.
- to facilitate an environment of cooperation and collaboration among students.

DEVELOPMENT

- Our students were asked to think about works or objects (toys, pencil cases, pieces of art...) which they would be able to create using recycled materials.
- They were set in small groups.
- After one lesson sharing ideas and being showed some ecological works on the internet, they started working together to make their proposals.
